# Built Better from the Inside Out

## Door Construction

*Our Courtyard Collection® doors are made with an insulated steel construction and fashioned to resemble the elegant wood designs of traditional carriage house doors.*

### Foamed-in-place Polyurethane

With a U-factor<sup>1</sup>  of up to 0.15 and an R-Value<sup>2</sup> of up to 12.76, foam insulation helps control costly heat loss and gain. This type of insulation can also diminish street noise and provide for quieter door operation.

### Nylon 13 Ball Bearing Rollers

Durable nylon rollers containing 13 heavy-duty ball bearings for quiet operation are standard on Model 7560 and an optional upgrade for Model 7520.

### Thermal Seals

Innovative in-between section thermal seals provide an air infiltration rating as low as .08 cfm and help to provide superior resistance to the elements.

### Wood Grain Textured Overlay Boards

Weather resistant trim overlay boards help protect against dents and the elements.

### Wind Load-Rated Options

Choosing wind load-rated options helps safeguard your door in extreme wind conditions. Wind load rating means your home can be built to withstand a variety of wind conditions and meet your local building codes. (Optional on Model 7560)

### High Cycle Spring

This optional spring provides a 25,000 cycle life for more than twice the life of a standard torsion spring.

Overhead Door™ Brand participates in the DASMA Thermal Performance Verification Program. The program verifies the thermal performance of sectional garage doors. The lower the U-factor rating, the better the thermal performance.

 Symbol indicates verified U-factor rating in accordance with the DASMA Thermal Performance Verification Program.

1 - U-factor is independently tested and verified per ANSI/DASMA 105 using solid doors and specific product sizes.  
2 - Overhead Door Corporation uses a calculated door section R-value for our insulated doors.

Model 7560, Panel H, White finish, Stockton windows, decorative hardware

# Courtyard COLLECTION® Door Designs

Select your Door Panel Style

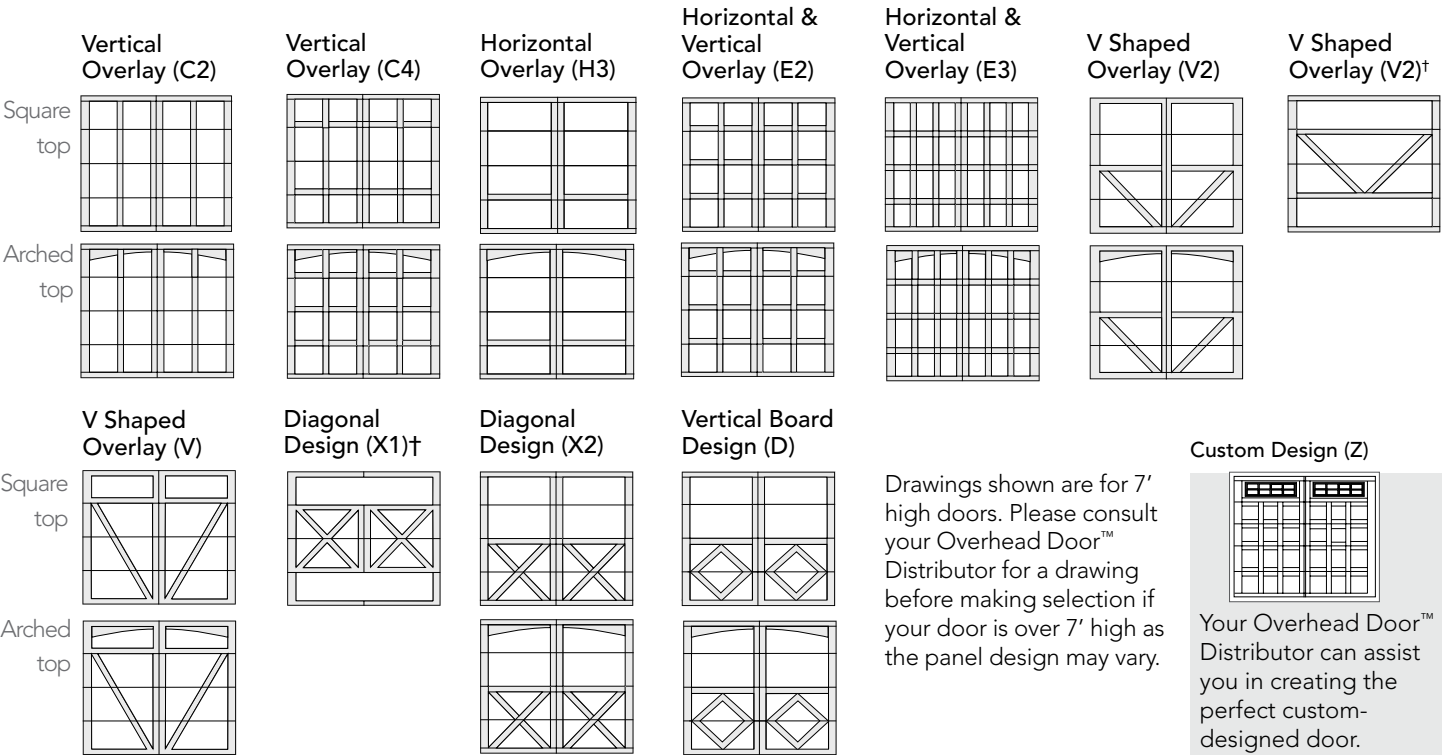

## 1 Choose a Panel Style and Model

The Courtyard Collection® includes two models – please see the chart at the bottom of the page for details. Some panel styles are only offered in the Model 7560 as indicated below.

### Models 7520/7560

### Model 7560

Drawings shown are for 7' high doors. Please consult your Overhead Door™ Distributor for a drawing before making selection if your door is over 7' high as the panel design may vary.

Your Overhead Door™ Distributor can assist you in creating the perfect custom-designed door.
